This good bull is out of an old cow who has a consistently moderate BW on 10 calves. His dam also produced one of our top cows, Leland Squaw 8257 who in turn has produced several top bulls including Leland Grand Canyon 3129 selling to Dahl Land & Cattle, ND. Lot 84's maternal sister was selected by Christina Jacobson, ND who was awarded our NILE Merit Heifer donation last year.

This bull had apparently been sick prior to weaning because he has sure kicked in since! His sire is proven low BW, his dam has had 5 calves at 78 lbs BW, so expect this bull to be a calving ease, heifer bull like his EPD indicates. His dam produced our donation NILE Merit Heifer selected by Tellan Steffan. She has become a very productive cow in their Heart River Program. She produced their high selling bull in 2007.

Born a twin, this bull comes from a low BW cow that has a history of producing heifer bulls. Having Major League 502 and Leland Smoothy 7326 as grandparents certainly has value.

A very low BW bull that should make a heifer bull deluxe. Look at his strong balanced carcass traits!

Leland Make My Day 257K.

Leland Rim 5212R, dam of Lot 129.

Calving ease, maternal traits and carcass merit show up when you look at this bull's pedigree. Notice his impressive breed rank. His dam, a two year old heifer, is backed by the powerful 4095 cow that has produced many out standing bulls. A maternal sister to his dam produced Lot 82 this year and has a nice performance history.

This long, smooth-made bull is exactly as his pedigree predicts. Produced by an ET daughter of Major League 502 and our 5124 cow, we expected calving ease, strong growth, maternal and solid carcass value. We got it! Add in the same traits from Make Mimi 7249 and it cements his goodness.

Selling ½ semen interest and full possession.

3/4 brother to Leland Majorette 5282R, dam of Lot 132.
